

HOT LIVIN'

Once in a while you turn around
clouds come up in your mind
You realize you're darkness-bound
you want to leave it behind
So take your stride and don't let go
your future's right at hand
don't give in when troubles show
don't put your head in the sand

Hot livin'

"What am I living for?
How can I bear all that?
Is changing worth a try?
What will the people say?"

Never mind what the people say
don't care about at all
Love, arrange, reform your life
Satisfaction is top of the poll!

Hot livin'
