

# Living

Living - living - peaceful - living.

Living - just normal living

without worries and trouble

no mountains left to climb

Living - just easy living

well protected being

having a peaceful time

all at once

there is a rumour

something is threatening

all our lives

noone knows

how to control it

how overcome it

until help arrives

we had to be all alone

spend all our time on our own

no people to meet

what a hard time

some people did try very hard

they wanted to find

some way to stop the plague

in the end there is a rumour

something is saving our precious lives

now we know

we have to be careful

we can control it

feels like paradise

Living - back to normal living

without worries and trouble

no mountain left to climb

Living - just delightful living

well protected being

having a peaceful time

Living - living - peaceful - living
